REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The instant invention claims composition comprising coating agent for cellulose-bearing substrates and cellulose-bearing substrates coated with such composition. The closest prior art reference that relates to the claimed invention is Carpenter (EPO'088). The closest prior art teaches that it is known in the art to make and use coatings to protect cellulose substrates. However, the closest prior art does not teach or fairly suggest the coating composition and its properties as in the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
